REPORT TO THE BOARD OF MAYOR AND ALDERMEN

PREPARED BY: Mark Shipley, Community Development Director

SUBJECT: Request for approval of a variance from the distance between driveways requirement in the Driveways and Other Access Ways Ordinance associated with the removal of the existing access to McFee Road that services 1006, 1008, and 1010 McFee Road and the addition of a new access to service the same three lots roughly 168 feet north of the access to be removed. The proposed access would be 148 feet south of Scarlet Sage Drive in the Meadows on McFee Subdivision resulting in a variance request of 252 feet (Kevin Robson, Applicant)

INTRODUCTION AND BACKGROUND: This agenda item involves an access-related request from three property owners along McFee Road that are in the Chantilly Acres Subdivision. As background, when the Chantilly Acres Subdivision was platted there were six lots created that each fronted along McFee Road. Since McFee Road is classified as an arterial street, new accesses are required to be at least 400 feet apart. Consequently, as part of the Chantilly Acres plat, access easements were created with the two northernmost lots sharing an access point onto McFee and the four southernmost lots sharing an access point roughly 420 feet to the south. The shared access not only improves safety by having fewer curb cuts and potential conflict points but also reduces vehicular crossings of the walking trail that runs parallel with McFee Road on the east side of McFee Road.

DISCUSSION: Since the original plat approval of Chantilly Acres, the two southernmost lots were combined and a new subdivision, the Meadows on McFee, was approved on the west side of McFee Road across from Chantilly Acres. Due to topography, sight distance, and utility pole conflicts, the two access points for the Meadows on McFee did not line up with the shared access points associated with Chantilly Acres. As a result, a variance was requested and approved for the Meadows on McFee access points.

This information is being provided to illustrate that both of the original access points for Chantilly Acres are now within 400 feet of other accesses along McFee Road. The applicant's request at this time would involve the removal of the existing access that was platted originally for the four southernmost lots in Chantilly Acres and establish a new access roughly 168 feet north of the access to be removed. Included in the packet is the applicant's rationale for the modified access onto McFee Road and maps showing what currently exists and what is proposed.

RECOMMENDATION: The Town Engineer has reviewed the applicant's request and is in support since it would not involve an increase in the number of access points and appropriate sight distance is achieved. From a practical perspective, the proposed access is also more centralized for the affected property owners and would better facilitate delivery, trash service, and emergency vehicle access. As noted above, the existing access is within 400 feet of the southern access for the Meadows on McFee. The proposed access, though within 400 feet of each of the accesses for the Meadows on McFee, would be more centered between those two access points.

At their meeting on September 21, the Planning Commission reviewed this request. One of the three property owners asked that the proposed access be shifted slightly to the north. The other two property owners were okay with this suggestion and the proposed access and associated variance was unanimously recommended for approval. Since the Planning Commission meeting, the affected property owners have met on site and slightly revised the proposed access. It will be moved about five feet to the north of where it was originally proposed. This would not create an issue with sight distance or affect the Town Engineer's recommendation.

Staff would note that if the modified access and associated variance is approved by the Board of Mayor and Aldermen, the plat for Chantilly Acres will have to be amended in terms of the platted access easement. The Town will also require a right of way permit to coordinate the construction of the new access and the removal of the existing access and restoration of that area to a grassed condition.

Proposal to move main entrance at Chantilly Acres At McFee

The homeowners at Chantilly Acres (Kyle Lawrence family, Amit Naskar family, and Kevin Robson family) would like to change the existing entrance to more safer and accessible entrance. Several reasons are:

- Current entrance does not allow delivery trucks and emergency vehicles to access appropriately to all three homes (3,4, & 5). Delivery trucks are forced to park on McFee Rd which therefore causes traffic to back up on the McFee. Home 3 (Kyle Lawrence) owns a landscaping business and he is forced to make multiple turns to enter which causes damage to his vehicle and damage to yard on #5.
- Home #4 (Amit Naskar Family) does not have direct access to put trash out for pick up. They would have to walk more than 100 feet both ways.
- The existing entrance was originally designed for 4 homes but plot #6 was purchased by home owner #5 and no home would be developed.
- By allowing new entrance it allows any type of vehicle (truck, deliver vehicles, and emergency vehicles to enter and exit safely.
- By allowing new entrance it allows home #4 to have access to Mcfee Rd and to put out their trash.
- The new easement road would therefore end at the property line between 5 and 4.

The owner of home 5 is willing to cover the cost of the new entrance to be done and also close out the existing entrance. Would need to know if the town of Farragut would be cutting out the new entrance curb and filling the existing curb or would home 5 get that done.

Notes:

- Box B on Final Plat measures 132 feet from center of Meadows entrance to center of New entrance at Chantilly Acres
- Box C is the center of entrance of lot #2 and Box A measures 256 feet from center of entrance Lot 2 to center of new entrance to Chantilly Acres
- New entrance to Chantilly Acres measures 25 feet wide from McFee Rd to easement Rd of Chantilly Acres.
